... = data not available; | = marks break in series; - = magnitude equals zero; 0.0 = magnitude is less than half of unit employed; \* = provisional, preliminary, estimate, budget figure; \$ = United States dollars; cif = cost, insurance, and freight; fob = free on board; GDP = gross domestic product; GNI = gross national income; IMF = International Monetary Fund; km<sup>2</sup> = square kilometer; kWh = kilowatt-hour; L = liter; m<sup>3</sup> = cubic meter; NPISHs = nonprofit institutions serving households; PRs = Pakistan rupees; SDRs = special drawing rights; t = metric ton.

Note: A base year represented as, e.g., 2005/2006, corresponds to the fiscal year (e.g., beginning 1 July 2005 and ending 30 June 2006) and related data are presented in the column for the single year during which most of the fiscal year occurred (e.g., 2006).

- a For 2017, data refer to final values based on the 6th Population and Housing Census and presents population data according to the census day 18 March 2017, and may not be comparable with data for 2000–2016 and 2018–2020. For 2000–2016 and 2018–2019, data refer to revised values of the midyear population projections by the National Institute of Population Studies (NIPS). For 2020, population data reported by the NIPS are based on the Census 1998.
- b For 2000, included in other services.
- c For 2000, includes electricity, gas, and water; financing, insurance, real estate, and business services. For 2001 onward, includes financial and insurance activities; and real estate activities.
- d Refers to refined activity participation rates. The refined activity participation rate is the currently active population expressed as a percentage of the population 10 years and older. This rate enables international comparison by factoring in the effect of age composition.
- e Includes accommodation and food service activities.
- f Includes information and communication.
- g Included in wholesale and retail trade; repair of motor vehicles and motorcycles.
- h Included in transportation and storage.
- i Includes NPISHs.
- j Estimated as the difference between GDP at current market prices and the sum of private consumption expenditure and government consumption expenditure.
- k Derived from balance-of-payments data.
- l Calculated using midyear population projections by the NIPS. Values may not tally with total population as of 1 July, which shows revised values of the midyear population projections by the NIPS for 2000–2016 and 2018–2019; final figures based on the 6th Population and Housing Census for 2017; and projection by the NIPS based on the Census 1998 for 2020.
- m Refers to period averages of fiscal year (July–June).
- n Data were derived using the conversion factor of 1 metric ton = 0.9842 tons. For 2001–2002, data for crude petroleum imports were derived using conversion factor of 1 barrel = 0.13 metric tons.
- o Refers to annual values for fiscal year (July–June).
- p For 2002–2008, growth rates were calculated using price indexes with base year 2000/2001 = 100 for food, nonalcoholic beverages, alcoholic beverages, tobacco, and narcotics. For 2009 onward, growth rates were calculated using price indexes with base year 2007/2008 = 100 (for 2009–2019) and base year 2015/2016 = 100 (for 2020) for food and nonalcoholic beverages only.
- q Prior to June 2008, the coverage was limited to data from the central bank and scheduled banks only. In June 2008, the coverage was enhanced to include development finance institutions, microfinance banks, and deposit-accepting nonbank financial companies. In July 2012, the coverage was enhanced to include money market funds. Therefore, the estimates are not comparable with analytical accounts of the banking sector (published up to June 2008) and monetary aggregates of weekly monetary surveys based on data of the central bank and scheduled banks (published prior to June 2008).
- r For 2000–2003, refers to net claims on general government, which include the central government and provincial governments.
- s For 2000–2003, included in net claims on general government.
- t For 2000–2007, the term “broad money liabilities” refers to broad money aggregate M2. For 2008 onward, coins in circulation issued by the central government are outside the scope of the Depository Corporations Survey, and therefore, are not included in broad money liabilities.
- u Includes deposits excluded from broad money, securities other than shares excluded from broad money, loans, financial derivatives, shares and other equity, and other items (net).
- v Includes surplus of autonomous bodies and grants.
- w Refers to foreign grants.
- x Includes statistical discrepancy.
- y Derived by calculating the difference between total revenue and grants and total expenditure and net lending.
- z Refers to banks and nonbanks.
- aa Refers to privatization proceeds.
- ab For 2000–2002, data are based on the IMF’s Balance of Payments Manual (fifth edition). For 2003 onward, data are based on the IMF’s Balance of Payments and International Investment Position Manual (sixth edition).
