... = data not available; - = magnitude equals zero; (-/+) 0 or 0.0 = magnitude is less than half of unit employed; | = marks break in series; * = provisional, preliminary, estimate; \$ = United States dollars; cif = cost, insurance, and freight; CO₂ = carbon dioxide; F\$ = Fiji dollars; fob = free on board; GDP = gross domestic product; GNI = gross national income; IMF = International Monetary Fund; kg = kilogram; km² = square kilometer; kWh = kilowatt-hour; MJ = megajoule; µg/m³ = micrograms per cubic meter; NPISHs = nonprofit institutions serving households; PM = particulate matter; PPP = purchasing power parity; SDRs = special drawing rights; t = metric ton.

a For 2017-2023, population growth rates are equal to 0.6%, which is the compounded growth rate between two consecutive census years, 2007 and 2017.

b For 2000-2011 and 2017-2019, the number of employed people excludes those engaged in unpaid employment as of the end of June. Hence, for these years, the number of employed and unemployed does not sum to the total labor force. Data for 2014 and 2016 are not comparable with other years because the data includes unpaid employment.

c For 2000-2009, includes accommodation and food service activities.

d For 2000-2009, includes information and communication.

e As per the International Labour Organization's disclaimer for this dataset, the imputed observations are not based on national data, are subject to high uncertainty, and should not be used for economy comparisons or rankings.

f For 2005-2007, estimates were compiled using a different methodology and are not comparable with estimates prior to 2005. For 2008 onward, figures are current basic prices.

Fiji

- g For 2000–2006, includes accommodation and food service activities.
- h For 2000–2006, includes information and communication.
- i Based on total value-added instead of total GDP to maintain consistency across the whole series and allow data comparability.
- j Statistical discrepancy for 2008, 2011, 2012, and 2013 is zero due to the compilation of the supply-and-use table for these years.
- k For 2000–2004, includes NPISHs final consumption.
- l For 2005–2007, refers to wholesale and retail; repair of motor vehicles and motorcycles; and personal and household goods.
- m For 2005–2007, includes information and communication.
- n For 2005–2007, refers to other community, social, and personal service activities.
- o For 2005, 2008, and 2011, growth rates were calculated from the GDP series without breaks.
- p For 2000–2007, data are similar to gross value-added at factor costs. For 2008 onward, data are similar to gross value-added at basic prices.
- q Estimated as the difference between GDP by industrial origin at current market prices and final consumption expenditure.
- r Derived from balance-of-payments data.
- s Refers to the gross agricultural production index.
- t For 2000, data are from the Monetary Survey, which follows an older format of presenting monetary and financial data. For 2001 onward, data are from the Depository Corporations Survey, which follows the IMF's standardized reporting format.
- u Refers to M3 money aggregates.
- v All interest rate figures are the monthly weighted average outstanding rates of commercial banks.
- w For 2015 onward, reflects the government's fiscal year (2015/16, 2016/17, 2017/18, and so on).
- x Sum of direct and indirect taxes.
- y The Fiji Ministry of Economy's revision in the classification of nontax revenue includes capital revenue and grants from 2004 to 2009.
- z Includes wages (for both established and nonestablished staff) and pension or compassionate allowance.
- aa Labeled as "Charges on Public Debt." From 2013 onward, includes only interest payments and miscellaneous charges associated with debt repayments.
- ab Operating and capital grants and/or transfers.
- ac Includes expenditure categorized as travel and/or communication, maintenance and operation, special expenses, value-added tax, and "others."
- ad For 2000–2004, follows the IMF's Balance of Payments Manual (fifth edition). For 2005 onward, follows the IMF's Balance of Payments and International Investment Position Manual (sixth edition).
- ae For 2005 onward, data from the Fiji Bureau of Statistics in Fijian Dollars were converted to United States dollars.
- af Data from the World Bank are expressed in kiloton (kt), while data provided in the table are expressed in thousand metric tons (t), using a conversion factor of 1 kt = 1,000 metric tons.
- ag Other greenhouse gas emissions refer to hydrofluorocarbons, perfluorocarbons, and sulphur hexafluoride.
- ah Refers to carbon dioxide emissions from fuel combustion.
- ai Disasters may include drought, extreme temperature, flood, landslide, storm, or wildfire.
