Pakistan

Note: A base year represented as, e.g., 2005/2006, corresponds to the fiscal year (e.g., beginning 1 July 2005 and ending 30 June 2006) and related data are presented in the column for the single year during which the fiscal year concluded (e.g., 2006).

- a For 2000–2022, data refer to the midyear population projections by the National Institute of Population Studies (NIPS). For 2000–2016, projections are based on Census 1998, while data for 2017–2022 are based on Census 2017. For 2023, data are based on the results of the 7th Population and Housing Census 2023 ‘The Digital Census’ of Pakistan (<https://www.pbs.gov.pk/sites/default/files/population/2023/Pakistan.pdf>).
- b Labour Force Survey 2019–20 was not conducted due to preparatory work for the District Level Labour Force Survey 2020–21. Hence, data is not available for 2020.
- c For 2000–2015, includes mining and quarrying.
- d For 2000, included in other services.
- e For 2000, includes electricity, gas, and water; financing, insurance, real estate, and business services. For 2001–2015, includes financial and insurance activities; and real estate activities.
- f Refers to refined activity participation rates. The refined activity participation rate is the currently active population expressed as a percentage of the population aged 10 years and older. This rate enables international comparison by factoring in the effect of age composition.
- g Data are revised due to 2015/2016 rebasing of national accounts.
- h Includes water supply; sewerage, waste management, and remediation activities.
- i Includes arts, entertainment, and recreation.
- j Figures are based on basic prices.
- k Estimated as the difference between GDP at current market prices and the sum of private consumption expenditure and government consumption expenditure.
- l Derived from balance-of-payments data.
- m Values may not tally with total population as of 1 July, which shows revised values of the midyear population projections by the NIPS for 2000–2016; final figures based on the 6th Population and Housing Census for 2017; projections for 2017–2022 by the NIPS based on Census 2017; and results of the 7th Population and Housing Census for 2023.
- n Derived using exchange rates from the national accounts tables on the PBS website.
- o Refers to period averages of fiscal year (July–June).
- p Data were derived using the conversion factor of 1 metric ton = 0.9842 tons. For 2001–2002, data for crude petroleum imports were derived using conversion factor of 1 barrel = 0.13 metric tons.
- q For 2011 onward, data are presented in thousand tons.
- r For 2023, data was derived using the conversion factor of 1 cubic foot = 0.02831 cubic meters.
- s For 2001–2007, includes alcoholic beverages, tobacco, and narcotics.
- t For 2001–2007, includes communication.
- u For 2002–2008, growth rates were calculated using price indexes with base year 2000/2001 = 100 for food, nonalcoholic beverages, alcoholic beverages, tobacco, and narcotics. For 2009 onward, growth rates were calculated using price indexes with base year 2007/2008 = 100 (for 2009–2019) and base year 2015/2016 = 100 (for 2020 onward) for food and nonalcoholic beverages only.
- v Prior to June 2008, the coverage was limited to data from the central bank and scheduled banks only. In June 2008, the coverage was enhanced to include development finance institutions, microfinance banks, and deposit-accepting nonbank financial companies. In July 2012, the coverage was enhanced to include money market funds. Therefore, the estimates are not comparable with analytical accounts of the banking sector (published up to June 2008) and monetary aggregates of weekly monetary surveys based on data of the central bank and scheduled banks (published prior to June 2008).
- w For 2000–2003, refers to net claims on general government, which include the central government and provincial governments.
- x For 2000–2003, included in net claims on general government.
- y For 2000–2007, the term “broad money liabilities” refers to broad money aggregate M2. For 2008 onward, coins in circulation issued by the central government are outside the scope of the Depository Corporations Survey, and therefore are not included in broad money liabilities.
- z Includes deposits excluded from broad money, securities other than shares excluded from broad money, loans, financial derivatives, shares and other equity, and other items (net).
- aa Includes surplus of autonomous bodies and grants.
- ab Refers to foreign grants.
- ac Includes statistical discrepancy.
- ad Derived by calculating the difference between total revenue and grants and total expenditure and net lending.
- ae Refers to banks and nonbanks.
- af Refers to privatization proceeds.
- ag For 2000–2002, data are based on the IMF’s Balance of Payments Manual (fifth edition). For 2003 onward, data are based on the IMF’s Balance of Payments and International Investment Position Manual (sixth edition).
- ah For 2000–2002, includes primary income.
- ai Data refer to calendar year.
- aj Calculated using the average of period mark-to-market (M2M) revaluation exchange rates from the State Bank of Pakistan.
- ak Data from the World Bank are expressed in kiloton (kt), while data provided in the table are expressed in thousand metric tons (t), using a conversion factor of 1 kt = 1,000 metric tons.
- al Other greenhouse gas emissions refer to hydrofluorocarbons, perfluorocarbons, and sulphur hexafluoride.
- am Refers to carbon dioxide emissions from fuel combustion.
- an Disasters may include drought, extreme temperature, flood, landslide, storm, or wildfire.
