... = data not available; (-/+) 0 or 0.0 = magnitude is less than half of unit employed; - = magnitude equals zero; * = provisional, preliminary, estimate; B = baht; GDP = gross domestic product.

- a Labor force refers to the population aged 15 years and older, and includes the seasonally inactive labor force in addition to those employed and unemployed. Data refer to the average of the four labor force survey rounds. Prior to 2011, the survey used the classification suitable to Thailand's industries based on the International Standard Industrial Classification. From 2011 onward, the labor force survey used the third revision of the Thailand Standard Industrial Classification (2009 TSIC). The Population Projection for Thailand 2010 - 2040 (Revision), revised by office of National Economic and Social Development Council (NESDC), was used as the base population in the estimation procedure since the Labor Force Survey 2021.
- b The reference year is 2011 because Bueng Kan province was separated after the year 2002.
