Note: Numbers may not sum precisely because of rounding.

<sup>a</sup> ADB-financed nonsovereign approvals include nonsovereign public and private sector loans, equity investments, guarantees, and technical assistance.

<sup>b</sup> The 2017 figures include \$74.92 million classified as debt securities in financial statements in accordance with accounting standards.

<sup>c</sup> "Others" includes private sector cofinancing through foundations and corporate social responsibility programs, and any public source, such as national development banks, that do not fall under official cofinancing.

<sup>d</sup> The total includes risk transfers: \$291.43 million for 2016, and \$565.56 million for 2017. The risk transfers do not increase the total amount of financing being made available to borrowers—rather, they diversify the composition thereof.
